Key-Cuff Tactical Restraints-Single Cuff

The Key-Cuff™ is manufactured from a high-impact, high-tensile strength engineered polymer. In addition to its strength, this restraint is also lightweight, allowing easy concealment with the capability to carry many at a time. Applied in a normal manner, the Key-Cuff™ is easily adjusted once in place. For easy removal, simply use a standard handcuff key.

NO DANGEROUS CUTTING TOOL IS NEEDED!

Key-Cuff™ can be used 6-8 times under normal conditions.

Color: Tactical Black

Double Key-Cuff Tactical Restraints

Key-Cuff™, the first reusable nylon restraint for Law Enforcement has been used all over the world by professionals since 1996. It was developed by security experts to eliminate cutting tools required by disposable plastic restraints, to provide adjustability, and to reduce the cost of using disposable restraints. **DOUBLE KEY-CUFF™** consists of two Key-Cuff™ straps attached with a special connector we call Kuff Konnector™.

DOUBLE KEY-CUFF™ releases with a standard handcuff key. With the reusability feature an officer can carry pre-looped restraints and adjust them to fit any situation. No more cutting and throwing away of restraints that are too tight!

Color: Tactical Black

- ? Tensile strength averaged 380 lbs. per strap!
- ? Folds up for easy carrying.
- ? **DOUBLE KEY-CUFF™** comes in Tactical Black color, which makes it ideal for carrying in any situation offering maximum concealment.
- ? Made in the USA.
